

FULL PROJECT LIST

Table A.1 lists the 41 projects in the study area that would help meet the three goals identified in this study. The source of each project is also included in this table. Note that projects in **bold** are included in the priority project list found in Section 6.

Table A.1 U.S. 101 Central Coast California Full Project List

County	Route or Facility ID	Project Category	Project Location/ Description	Project Source
Monterey	SR 156	Capacity Expansion. Modify interchange	New four-lane freeway on SR 156 from Castroville Boulevard to U.S. 101. New interchange at U.S. 101 and SR 156 connection and new interchange at Castroville Boulevard and SR 156	CFMP
Monterey	Hwy 101	Modify ramps	U.S. 101 @ Sanborn Rd (Salinas) Operational Improvements: modify SB off-ramps to address truck congestion	CFMP
Monterey	River Road (SR 68 to Arroyo Seco Rd)	Route designation	Designate River Road as a tourism/freight wine corridor between Salinas and Soledad, parallel to US 101	Email from Partners
Monterey	Intermodal	Intermodal	Construct a new intermodal truck-rail facility Gonzales or Chualar along UP Coast Mainline	CFMP
Monterey	Hwy 101	Modify ramps. ITS	U.S. 101 from Harris Rd to Russell Rd/Espinosa Rd (north Salinas). Operational Improvements: modify interchanges; ramp metering	CFMP
Monterey	Hwy 101	Capacity Expansion	Salinas Corridor (Widening)	MTP/SCS

County	Route or Facility ID	Project Category	Project Location/ Description	Project Source
Monterey	Hwy 101	Modify interchange	Harris Road - Construct new interchange with U.S. 101	MTP/SCS
Monterey	Hwy 101	Modify interchange	Sanborn/Elvee - Off ramp and intersection improvements	MTP/SCS
Monterey	Hwy 101	New Road	U.S. 101 from Soledad to Harris Rd/Abbott St (south Salinas). Conversion from highway to freeway. Addition of new frontage roads (refer to US 101 Mainline Study).	CFMP/TAMC
Monterey	Hwy 101	Modify interchange	1st Street Interchange	MTP/SCS
Monterey	Hwy 101	Modify interchange	Gloria Road Interchange Improvements	MTP/SCS
Monterey	Hwy 101	Modify interchange	Walnut Ave Interchange	MTP/SCS
Monterey	Hwy 101	Modify interchange	North and South Interchange (Front Street), Soledad	MTP/SCS
San Benito	SR 152	New truck infrastructure	New alignment of SR 152 between 101 and the Merced County line, including changes in Santa Clara County, and adding an eastbound truck climbing lane over Pacheco Pass	Email from Partners
San Benito	SR 25	New Road	New four-lane highway from San Felipe Road in Hollister to Hudner Lane North of SR 156, 3.8 miles total	Email from Partners
San Benito	SR 156	Capacity Expansion. ITS	SR 156 Alameda St. to San Benito River Bridge. Add Capacity & Access Control: widen to 4 lanes to address congestion and truck mobility	CFMP
San Luis Obispo	Hwy 101	Modify interchange	SR 46E interchange Northbound on-ramp	RTP/SCS
San Luis Obispo	Hwy 101	Modify interchange	Interchange Improvements SB/NB ramps and SR 166 and Thompson Ave intersection	RTP/SCS
San Luis Obispo	SR 41	New truck infrastructure	Operational Improvements: extend truck climbing lane	CFMP
San Luis Obispo	Hwy 101	New truck infrastructure. Modify ramps	U.S. 101 Pismo Beach Congestion Relief Project. Extension of existing southbound truck lane near Spyglass Drive, reconstruct inside shoulder to serve as a managed shoulder. Mattie Rd on and off ramps	Email from Partners

County	Route or Facility ID	Project Category	Project Location/ Description	Project Source
San Luis Obispo	Hwy 101	Modify interchange	U.S. 101 at Wellsona Rd (North of Paso Robles). Freeway Conversion: new interchange to address corridor and truck mobility, safety	CFMP
San Luis Obispo	Union Pacific	Rail Capacity	Implement Centralized Traffic Control (CTC) for rail between McKay and Santa Margarita (MP 202.3 to 229.6)	CFMP
Santa Barbara	Hwy 101	Capacity Expansion. Modify interchange	U.S. 101 from Carpinteria to Santa Barbara: Add HOV lanes to reduce commuter travel and truck congestion; modify interchanges at Olive Mill Road and at Hot Springs Road/Cabrillo Boulevard and North Jameson Lane and US 101	CFMP
Santa Barbara	Hwy 101	Capacity Expansion	Extended 3rd NB lane, Fairview to Glen Annie Rd.	RTP/SCS
Santa Barbara	Hwy 101	ITS	Patterson Avenue Ramp Meter	RTP/SCS
Santa Barbara	Hwy 101	ITS	Intelligent Transportation System (ITS) Ramp Metering	RTP/SCS
Santa Barbara	Hwy 101	Modify interchange	Linden Ave/Casitas Pass Interchanges Widening Phase 3	RTP/SCS
Santa Barbara	Hwy 101	Modify interchange	San Ysidro Interchange Improvement	RTP/SCS
Santa Barbara	Union Pacific	Rail Capacity	From MP 423.0 to MP 368.6, Pacific Surfliner route, complete environmental clearance, design, engineering and permitting for siding projects in Santa Barbara and Ventura Counties.	
Santa Barbara	Hwy 101	Capacity Expansion	Widening from Clark Ave to Santa Maria Way	RTP/SCS
Santa Barbara	Hwy 101	Modify interchange	McCoy Interchange	RTP/SCS
Santa Barbara	Hwy 101	Modify interchange	SR 135 Interchange (Santa Maria)	RTP/SCS
Santa Barbara	SR 1	Modify ramps	U.S. 101 at Betteravia Rd (South Santa Maria). Operational Improvements: modify NB on-ramp to address truck congestion	CFMP
Santa Barbara	Union Pacific	Rail Capacity	Devon to Tangair Curve Realignment	CFMP

County	Route or Facility ID	Project Category	Project Location/ Description	Project Source
Santa Barbara	Union Pacific	Rail Crossing	MP 276 Track Realignment and Highway 1 Overpass Replacement	
Santa Barbara	Hwy 101	Modify interchange	Castillo Interchange Improvement (Castillo Street)	RTP/SCS
Santa Cruz	Santa Cruz Branch Line	Intermodal	Construct transload facility at Watsonville to facilitate truck loading onto rail, increase rail shipping, and reduce truck traffic on roadways	Email from Partners
Santa Cruz	Santa Cruz Branch Line	Rail Capacity	Upgrade rail to Federal Rail Administration Class 2 rail, allowing freight train speeds of up to 25 MPH on sections of rail throughout Santa Cruz County	CFMP
Santa Cruz	SR 129	Modify intersection	SR 129 and Lakeview intersection improvements: Construct a roundabout at the intersection of Lakeview Road and Route 129. Associated infrastructure improvements.	Email from Partners
