I. Purpose of the Report	3
II. Annual List of Obligation Report for FFY 2025	3
III. Annual List of Obligated Projects Summary for FFY 2025	4
1. Federal Highway Administration Funds	7
1.1. Transportation Agency for Monterey County	7
1.2. Santa Cruz County Regional Transportation Commission	18
1.3. Council of San Benito County Governments	65
1.4. Caltrans	68
2. Federal Transit Administration Funds	79
2.1. Monterey-Salinas Transit	79
2.2. Santa Cruz Metropolitan Transit District	80

Preparation of this report was financed in part by the U.S. Department of Transportation, Federal Transit, and Highway Administrations, under the Infrastructure Investment and Jobs Act (IIJA).

I. Purpose of the Report

Federal regulations (23 CFR 450.334) requires Metropolitan Planning Organizations (MPOs) to publish Annual List of Federally-Obligated Projects. Specifically:

An Annual Listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which Federal funds (under 23 U.S.C. or 49 U.S.C. Chapter 53) have been obligated in the preceding programming year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each Metropolitan Transportation Improvement Program (MTIP).

The present report fulfills this requirement by listing all federally-funded transportation projects in the tri-county Monterey, San Benito, and Santa Cruz AMBAG region that were obligated from October 1, 2024 until September 30, 2025, Federal Fiscal Year (FFY) 2025. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement.

II. Annual List of Obligation Report for FFY 2025

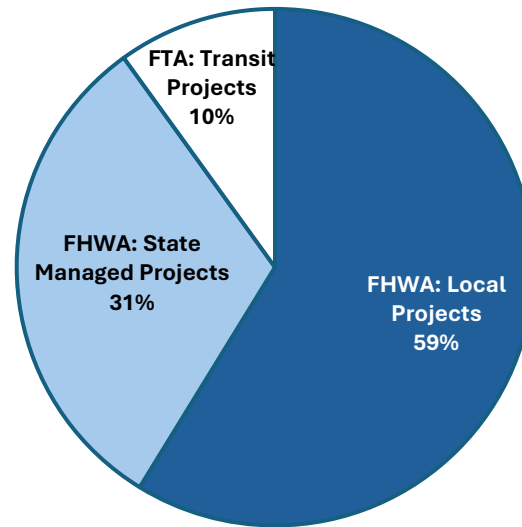

This report is divided into two parts between the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) funding programs. Within each agency fund grouping, the obligations are listed by the different funding programs.

The obligation information for FHWA-funded programs was provided by the California Department of Transportation, while the obligation information for FTA-funded programs derived from the transit providers (Monterey Salinas Transit, Santa Cruz Metropolitan Transit District, and San Benito County Local Transportation Authority) and/or the respective implementing agencies. This report lists only federal obligations; no state or local funds are reported.

III. Annual List of Obligated Projects Summary for FFY 2025

This annual listing shows that approximately \$170 million of federal funds were obligated in the AMBAG region in FFY 2024-25. Of the \$170 million obligated, roughly 10%, or \$17 million, was obligated by the Federal Transit Administration (FTA) for transit projects. The remaining portion of funds (90%) were obligated by the Federal Highway Administration (FHWA) for highway, local road, bicycle and pedestrian projects. Of the \$170 million obligated, local agencies obligated 59% for local projects on and off the state highway system, and the California Department of Transportation (State-Managed) obligated 31% for state highway related projects.

AMBAG REGION FEDERAL OBLIGATIONS, FFY 2024-25

Annual Obligated Project Performance Measure Progress

Under the statewide performance management framework, AMBAG is responsible for supporting Caltrans targets or setting our own regional targets. Caltrans has set statewide targets to comply with federal transportation performance measure regulations and AMBAG has adopted these targets. These targets are incorporated into AMBAG’s planning processes, including in the MTIP and MTP/SCS.

There are two primary requirements for incorporating performance management into the MTIP. For all federally required targets, AMBAG must show that the MTIP “makes progress towards achieving the performance targets” and that the MTIP includes, “to the

maximum extent practicable, a description of the anticipated effect of the MTIP towards achieving the performance targets” (Title 23 CFR§ 450.326). AMBAG must show that it is moving in the right direction based on the package of investments included in the MTIP and must also describe how much of an effect the MTIP investments are expected to have on the target achievement.

The table below shows the obligated federal funds in FFY 2024-25 towards each of the performance measures (projects may contribute to more than one performance measure):

Performance Measure	Total Obligations
PM 1: Transportation Safety	\$24,984,722.28
PM 2: National Highway System (NHS) Pavement and Bridge Condition	\$51,784,566.13
PM 3: NHS Performance, Interstate System Freight Movement, and CMAQ Program Performance	\$37,957,083.20
Transit Operation & State of Good Repair	\$16,929,668.52
Non-PM Projects (Emergency Repair, maintenance, planning studies, etc.)	\$89,355,701.29

1. Federal Highway Administration Funds

1.1 Transportation Agency for Monterey County

MPO ID	Project Title	Project Description	Agency Name	Fund Type	Date of Obligation	Amount of Obligation
	SR - 1 Big Sur Emergency Protective Measures	ON STATE ROUTE: 1.
